PROFESSIONAL EXPERIENCE

Project Caerus   **Feb 2023 - Dec 2023**
Founder & Project Lead

Launched and directed Project Caerus, a service-learning project with nonprofit aspirations. Spearheaded fundraising and community outreach efforts, raising nearly $4,000 within the first two weeks. Enhanced digital presence through a project website and strategic social media connections, fostering partnerships with local influencers and organizations.

Responsibilities:
- Developed and managed all operational, financial, and outreach efforts for the project.
- Built and maintained Project Caerus's website, generating over 80,000 visits within four months.
- Established and led a service-learning initiative that cultivated community engagement and visibility.
- Networked and built strong connections with other like-minded organizations and lawmakers.

JROTC Cybersecurity Team - Mariner High School
Cybersecurity Team Commander

Led my high school's cybersecurity team to national recognition, utilizing my web development skills and technical knowledge to advance the team's performance.

Responsibilities:
- Directed team efforts to achieve Platinum Tier status, applying both leadership and technical skills.
- Collected and analyzed cybersecurity data to identify common vulnerabilities, improve defense strategies, and educate team members on best practices.

EDUCATION

Diploma | Mariner High School   **Aug 2019 - May 2023**

Completed the JROTC program with notable achievements, including creating a website to drive support and funding for the program and enhancing new student retention through improved digital outreach.
